

## School work at home for Mr. Hourigan's Class

Week 4 January 2021

Charleville CBS Primary

Hello boys,

February has arrived 😊 This is an exciting time for farmers as they welcome the birth of the new calves and lambs. This is a sure sign of spring!

I can see the green buds on my plum trees are that little bit greener again this week.

I can see Snowdrop flowers in the garden. These are usually the first to flower.

What signs of Spring can you see in your area?

The days are getting longer and brighter. This gives you more time to play outside 🌞

### Reminders:

- As always, spread out the work out over the week rather than doing it all in one day.
- Just to remind you that the Teams **Notebook** is up and running. It is a great place to share your work with me and get some feedback. This video might help refresh your memory:  
<https://www.youtube.com/watch?v=HxBVOADPvro&feature=youtu.be>
- I share some other useful and helpful materials on the Teams Notebook **Content Library** also so keep an eye out there
- As always you can type your work or write your work send it to me on Teams or email it to me.

### Tips:

1. Plan out your day. Make a checklist. E.g. early breakfast, school work, play outside, bird watching, clean the dishes etc.
2. Keep up the positive thinking and positive mindset.
3. Keep up the random acts of kindness around the house.

We will have a class Teams **video call** at **2pm this Wednesday 3<sup>rd</sup> February.**

If the links below do not work, try copying and pasting the link into your internet search bar.

There is a new Birdwatch Ireland link in the science section of your work. Again, it is a great video and I would highly recommend it for you and the whole family to watch.

If you have any problems or questions, please email me at [hourigan@charlevillecbsprimary.ie](mailto:hourigan@charlevillecbsprimary.ie) or message me on Teams.

Keep up the good work boys,

Mr. Hourigan

Despite being killed by a vehicle it was in remarkably good condition. He brought it home and took photographs and measurements. From it’s plumage (feathers) it is a male buzzard. It is just slightly smaller than a fully grown adult. You can see images of this buzzard on Teams.
